EXPERIENCE

React Native Developer

QUICK BREAK

July 2024 – Ongoing Remote

- Designed and developed responsive web applications using React Native and nodejs,ensuring seamless user experience across devices
- Built Restful APIs and integrated third party services to enhance platform functionality.

PROJECTS

CYBER THREAT DETECTION USING MACHINE LEARNING

IOE Purwanchal Campus-Final Year Project

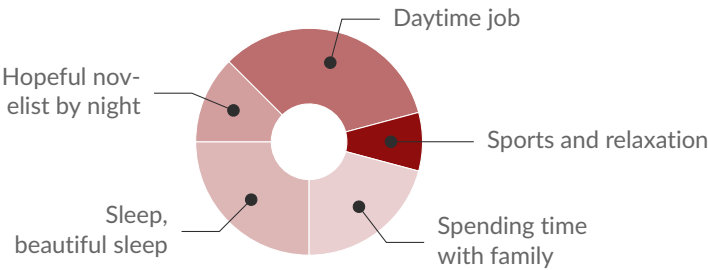

- We built a Machine Learning models based on dataset of Canadian institute of Cybersecurity ,CICIDS that predicts major 5 cyber threats.We have used streamlit library to predict the result based on input traffic data.

QUICK BREAK

Start Up Project

We created a mobile application that increases the productivity of people.in this project,I worked as a full stack developer creating seamless user experience across devices. I used React Native for frontend and nodejs for backend.

A DAY OF MY LIFE

MY LIFE PHILOSOPHY

“Every problem is an opportunity in disguise”

STRENGTHS SKILLS

- Hard-working
- Communication
- Motivator & Leader
- Problem Solving
- Adaptability
- Growth Mindset

- nodejs
- Javascript
- typescript
- React Native
- Expressjs
- mongodb
- mysql
- Docker
- Git

LANGUAGES

- Nepali
- English

EDUCATION

B.E. in Electronics,Communication and Information Engineering

IOE,Tribhuwan University

May 2021 – April 2025

Final Project title: CYBER THREAT DETECTION USING MACHINE LEARNING
